PROFESSIONAL SUMMARY

Dedicated Software Engineer with over 6 years of experience in mobile and web development. I have more than 5 years of experience building cross-platform mobile apps using React Native and Expo, and around 3 years developing web applications with ReactJS and VueJS. Over the past year, I have actively adopted AI-assisted tools to speed up and optimize projects built with Flutter and NestJS. I can handle the full lifecycle of mobile applications, including setting up CI/CD pipelines, managing App Store and Google Play deployments, optimizing load times, and writing unit tests.

TECHNICAL SKILLS

- **Tech Stack:** React Native, Flutter, ReactJS, Nestjs, JavaScript, TypeScript, HTML/CSS
- **Developer Tools:** Xcode, Android Studio, VSCode, Antigravity IDE, Git, Firebase
- **Databases:** PostgreSQL

EXPERIENCE

- **NAL Vietnam** 2 years 8 months · Oct 2023 – Present
Mobile Developer, Front-end Developer
 - Developed cross-platform mobile applications utilizing **React Native, Expo, and Flutter**, and modern web applications using **ReactJS, Remix, NextJS, and NuxtJS**.
 - Established automated **CI/CD pipelines** for a mobile application project, achieving a **50% reduction** in build and deployment times compared to manual methods, and successfully releasing applications to the **App Store**.
 - Mentored and guided **3 intern-level developers**, with **1 successfully transitioning** into a full-time contracted employee.
 - Optimized **mobile performance** for faster loading times and a smoother user experience.
 - Wrote unit tests and followed **clean code principles**, emphasizing testing to ensure features function correctly.
 - Worked efficiently using **Agile/Scrum** methodologies to deliver high-quality software iterations.
- **NCCPLUS** 4 years · Dec 2019 – Oct 2023
Mobile Developer, Front-end Developer
 - Developed cross-platform mobile applications utilizing **React Native** and dynamic web applications using **ReactJS**.
 - Successfully launched and maintained **4 mobile applications** on the **Google Play** and **App Store**, handling store compliance and release management.
 - Collaborated with designers, product managers, and business analysts, communicating directly with **Australian stakeholders** to translate business requirements into technical solutions.
 - Mentored and trained **10+ intern-level developers** in **React Native**, leading to their successful transition into official full-time contracted employees.

PROJECTS

- **Super App** - *Utilities Mobile App* Jul 2025 - Dec 2025
Flutter, Fastlane, GitLab CI/CD, Firebase(Scheduler, Functions, Firestore).
 - Adopted a **Monorepo** architecture to enable independent development of application features and screens across separate sub-repositories.
 - Developed the "Upcoming Birthdays" feature utilizing **Node.js** to ingest data from Google Spreadsheets into **Firestore**, scheduled and triggered via **Cloud Scheduler**.
 - Established **CI/CD pipelines** utilizing **GitLab CI** and **Fastlane** to automate application deployment to both the **App Store** and **Google Play**.
- **Coca** - *E-commerce Mobile App* Oct 2023 - May 2025
React Native, Expo, Unisize, Shopify, Remix, GraphQL.
 - Utilized **Expo**, **GraphQL**, and **Shopify API** to develop core e-commerce features including Search, Cart, Home, Product Details, and Push Notifications.
 - Optimized app performance, achieving a **30% reduction** in initial load times for the Dashboard and Product Search screens.
 - Integrated the **Unisize SDK native module** into the application to enable clothes size recommendation based on user height, weight, and personal preferences.
 - Implemented push notification features utilizing **Firebase Cloud Messaging (FCM)** and Apple Push Notification service (**APNs**).
- **Texas System** - *E-commerce Mobile App* Feb 2023 - May 2023
React Native, NestJS, PostgreSQL, Prisma, VNPay sandbox.
 - Utilized **React Native** to build core application features including Authentication (Login, Sign Up), Product Search, Cart management, and Payment integration.
 - Developed a secure backend utilizing **NestJS**, **Prisma ORM**, and a **PostgreSQL** database, building over **20+ RESTful APIs**.
 - Integrated **VNPay** (sandbox mode) to enable secure online payment features within the mobile application.
- **Hough Rapid** - *Medical Mobile App* Jan 2022 - Jul 2022
React Native, Redux, Apple Wallet, Firebase Cloud Messaging.
 - Designed the project codebase utilizing **React Native** and **Redux Toolkit**, and developed key features including Testing history, Testing tutorials, and YouTube Video integration.
 - Developed a feature to integrate COVID-19 test result certificates into **Apple Wallet** utilizing **passkit-generator** on **Node.js** and **Firebase Cloud Functions**.

EDUCATION

- **Academy of Cryptography Techniques** 2017 - 2023
Major: Information Security
